EXPERIENCE

Frontend Developer/UX-UI Designer Wellnecity (Start-up) October 2021 – July 2022

- Collaborated with Engineers in an agile environment to build a full-stack internal employee portal application for Wellnecity business goals.
- Pair Programmed with Engineers to implement prototyped designs I created in Figma.
- Created front-end code with reusable React components using HTML, CSS3 and Javascript.
- Conducted user interviews, surveys, competitive analysis, and market research.
- Produced personas, user flows, journey maps, sketches, wireframes, and prototypes.
- Working directly with the CEO to produce prototypes, as well as back-end developers to implement the designs.
- Convey user-sentiment and communicate business goals to development teams.
- Worked individually and collaboratively on projects centered around user research, interactive design and rapid prototyping.
- Created a complete Design System that adhered to Wellnecity's and UX design standards, documented in Notion.

Web Designer Freelance June 2020 – July 2021

- Designed landing pages and personalized frontend websites using React framework.
- Modified and made changes to clients existing web application designs.
- Coordinate various web pages with appropriate links and multimedia elements to create cohesive designs.
- Assisted in preparation of HTML emails on various technology platforms.
